Independent Auditor's Report

To the Shareholders of SAAM Energy Development Company Limited (formerly known as "Siam Advanced Asset Management Company Limited")

Opinion

I have audited the accompanying consolidated financial statements of SAAM Energy Development Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2016, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of SAAM Energy Development Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SAAM Energy Development Company Limited and its subsidiaries and of SAAM Energy Development Company Limited as at 31 December 2016, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions under the Royal Patronage of His Majesty the King as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

I draw attention to following Note 4 to the financial statements:

- a) As mentioned in Note 4.1 to financial statements, during the current year, the Company changed the basis of preparation of their financial statements from the Thai Financial Reporting Standard applicable to non-publicly accountable entities which used in 2015, to Thai Financial Reporting Standards. Such change require the Group to present the financial statements and make additional disclosure in accordance with Thai Financial Reporting Standards and change in certain accounting policies, with no significant impact to the measurement of transactions.
- b) Moreover, in Note 4.2 to the financial statements, which describes to the previous year adjustments of recording service income and prepaid land rental fee. Thus, the Company has restated the separate financial statements for the year ended 31 December 2015 reflected to these adjustments transactions.

My opinion is not qualified in respect of the above matters.

Other Matters

The separate financial statements of SAAM Energy Development Company Limited for the year ended 31 December 2015, were audited by other auditor who, under her report dated 25 April 2016, expressed an unqualified opinion on those statements.

The consolidated financial statements as at 31 December 2015 and for the year then ended of SAAM Energy Development Company Limited and its subsidiaries for the first time, presented herein as comparative information, were prepared by management which were unaudited and unreviewed.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the consolidated
 financial statements. I am responsible for the direction, supervision and performance of the
 group audit. I remain solely responsible for my audit opinion.

I communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The engagement partner on the audit resulting in this independent auditor's report is Miss Siriwan Suratepin.

SAAM Energy Development Company Limited and its subsidiaries (formerly known as "Siam Advanced Asset Management Company Limited") Notes to financial statements

For the year ended 31 December 2016

1. General information

SAAM Energy Development Company Limited ("the Company") is a limited company incorporated and domiciled in Thailand. The Company is principally engaged in identifying locations for the construction of solar power plants. Its registered office address is at 17 Soi Ramkhamhaeng 22, Ramkhamhaeng Road, Huamark, Bangkapi, Bangkok.

On 1 December 2016, the Extraordinary Meeting of the Shareholders of the Company passed the resolution to change the Company's name from "Siam Advanced Asset Management Company Limited" to "SAAM Energy Development Company Limited". The Company registered the change of its name with the Ministry of Commerce on 6 December 2016.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 28 September 2011, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Change in basis of preparation

During the current year, the Company changed the basis of preparation of the financial statements from the Thai Financial Reporting Standard applicable to non-publicly accountable entities as used in the 2015 fiscal year to Thai Financial Reporting Standards, in order that the financial statements would provide more useful information and better reflect their financial position, operating results and cash flows, and pursuant to the plan to list in the Stock Exchange of Thailand. The change had no effect to the financial statements, except for the following accounting standards.

TAS 12 Income Taxes

This accounting standard requires an entity to identify temporary differences between the carrying amount of an asset or liability in the statement of financial position and its tax base and recognise the tax effects as deferred tax assets or liabilities subjecting to certain recognition criteria. The Company and its subsidiaries have changed this accounting policy in this current period and restated the prior year's financial statements, presented as comparative information, as though the Company and its subsidiaries had initially recognised the tax effects as deferred tax assets or liabilities. The cumulative effect of this change in accounting policy has been presented in Note 4 to the financial statements.

TAS 19 Employee Benefits

This accounting standard requires employee benefits to be recognised as expense in the period in which the service is performed by the employee. In particular, an entity has to evaluate and make a provision for post-employment benefits using actuarial techniques. The Company and its subsidiaries previously accounted for such employee benefits when they were incurred.

The Company and its subsidiaries have changed this accounting policy in the current year and recognise the liability in the transition period retrospectively as though the Company and its subsidiaries initially recorded these employee benefit expenses. The change has the effect of decreasing the profit of the Company and its subsidiaries for the year 2016 and 2015 by Baht 0.3 million and Baht 0.2 million, respectively (Separate financial statements: decreasing profit by Baht 0.3 million, 2015: Baht 0.1 million). The cumulative effect of the changes in the accounting policy has been presented in Note 4 to the financial statements.

2.3 Basis of consolidation

a) The consolidated financial statements include the financial statements of SAAM Energy Development Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries"):

Company's name	Nature of business	Country of incorporation	Percen shareh	tage of olding
			2016 Percent	2015 Percent
SAAM One Co., Ltd.	To identify locations for solar power plant construction	Thai	99.99	99.99
SAAM Two Co., Ltd.	To identify locations for solar power plant construction	Thai	99.98	99.98
SAAM Three Co., Ltd.	To identify locations for solar power plant construction	Thai	99.99	99.99
SAAM Lopburi One Co., Ltd.	To identify locations for solar power plant construction	Thai	99.97	99.97
SAAM Solar Power One Co., Ltd.	To produce and distribute of electricity generated from solar energy	Thai	99.99	99.99
SAAM Solar Power Two Co., Ltd.	To produce and distribute of electricity generated from solar energy	Thai	99.99	99.99

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Company and its subsidiary companies have been eliminated from the consolidated financial statements.
- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.
- 2.4 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

a. Financial reporting standards that became effective in the current year

During the year, the Company and subsidiaries have adopted the revised (revised 2015) and new financial reporting standards and accounting treatment guidance issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements.

b. Financial reporting standard that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which is effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards.

The management of the Company and its subsidiaries believe that the revised financial reporting standards and interpretations and new accounting treatment guidance will not have any significant impact on the financial statements when they are initially applied. However, one standard involves changes to key principles, which are summarised below.

TAS 27 (revised 2016) Separate Financial Statements

This revised standard stipulates an additional option to account for investments in subsidiaries, joint ventures and associates in separate financial statements under the equity method, as described in TAS 28 (revised 2016) Investments in Associates and Joint Ventures. However, the entity is to apply the same accounting treatment for each category of investment. If an entity elects to account for such investments using the equity method in the separate financial statements, it has to adjust the transaction retrospectively.

At present, the management of the Company is evaluating the impact of this standard to the financial statements in the year when it is adopted.

- 4. Effects of changes in accounting policies and prior year adjustments of financial statements
- 4.1 Cumulative effect of changes in accounting policies due to change in basis of preparation of the financial statements

During the current year, the Company changed the basis of preparation of the financial statements from the Thai Financial Reporting Standard applicable to non-publicly accountable entities for used in the 2015 fiscal year to Thai Financial Reporting Standards. As a result, the Group has to adopt TAS 12 Income Taxes and TAS 19 Employee Benefits, as described in Note 2.2 to the financial statements.

The Group had restated the statements of financial position as at 31 December 2015 and 1 January 2015 and the statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year ended 31 December 2015, presented herein as comparative information, in order to reflect the effect of the change in basis of preparation. In addition, the Group applied this basis in the preparation of the consolidated statements of financial position as at 31 December 2015 and 1 January 2015, and the consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year ended 31 December 2015 for the first time, presented herein as comparative information. The cumulative effect of the change in basis of preparation has been separately presented in the statement of changes in shareholders' equity.

4.2 Cumulative impact of prior year adjustments

- 4.2.1 As at 31 December 2015, the Company did not record the prepaid land rental expenses of Baht 71,318 resulting in overstatement of cost of service for the year ended 31 December 2015 by Baht 71,318.
- 4.2.2 The Company did not record service income on an accrual basis in the financial statements for the years 2015 and 2014, resulting in understatement of service income and accrual income by Baht 1,020,240 and Baht 1,011,360, respectively.

The amounts of adjustments affecting the financial statements are summarised below.

(Unit: Thousand Baht)

	Separ	Separate financial statements

In addition, certain amounts in the separate financial statements for the year ended 31 December 2015 have been reclassified to conform to the current year's classification but with no effect to previously reported net income or shareholders' equity.

5. Significant accounting policies

5.1 Revenue recognition

Sales

Sales of electricity is recognised based on the amount of electricity produced and the agreed tariff (Feed-in Tariff).

Rendering of services

The Company and its subsidiaries recognise revenue from identifying power plant locations and maintenance of power plant equipment based on the rates and periods as stipulated in the agreements.

Interest income

Interest income is recognised on an accrual basis based on the effective interest rate.

Dividends

Dividends are recognised when the right to receive the dividends is established.

5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

5.3 Trade accounts receivable

Trade accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

5.4 Investments

Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

5.5 Property, plant and equipment/Depreciation

Land is stated at cost. Building and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment is calculated by reference to their costs or the revalued amount, on the straight-line basis over the following estimated useful lives:

Power plant	20	years
Building and building improvement	20	years
Tool and equipment	5	years
Furniture and office equipment	5	years
Motor vehicle	5	years

Depreciation is included in determining income. No depreciation is provided on land and assets under construction.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

5.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

5.7 Intangible assets

Intangible assets acquired is stated at cost less accumulated amortisation and allowance for loss on impairment of assets (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

Useful lives

Computer software

10 years

5.8 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

5.9 Long-term leases

Leases of equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases is depreciated over the useful life of the asset.

Leases of property, plant and equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight line basis over the lease term.

5.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company and its subsidiaries' functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

5.11 Impairment of assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired on annual basis. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. An impairment loss is recognised in profit or loss.

5.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined benefit plans

The Company and its subsidiaries have obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Company and its subsidiaries treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

5.13 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.14 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5.15 Derivatives

The Company and its subsidiary company have no policy to speculate in or engage in the trading of any financial derivative instruments, other than for managing the interest rate risks. The subsidiary company has entered into interest swap agreements to mitigate such exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and subsequently recognised at fair value, which is determined by reliable financial institutions. Gains on losses arising from changes in the fair value of the contracts are recognised in the income statement.

5.16 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgement regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk (bank and counterparty, both) liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

7. Related party transactions

During the years, the Company and its subsidiaries had significant business transactions with related parties, principally in respect of the provision of services and loans. The pricing policies for these related party transactions are summarised as follows:

- 1. Management fees are charged at the amount stated in the agreement.
- 2. Interest on loans are charged at 1.5 2 percent per annum.
- 3. Dividend income is recognised when declared and the right to receive the dividends is established.

11.1 Changes in share capital of subsidiary companies

- a) On 2 June 2015, the Extraordinary Meeting of the shareholders of SAAM Three Co., Ltd., a subsidiary company, passed a special resolution to increase its registered share capital from Baht 5 million (50,000 ordinary shares of Baht 100 each) to Baht 30 million (300,000 ordinary shares of Baht 100 each) by issuing 250,000 ordinary shares with a par value of Baht 100 each. The subsidiary company registered the increase of share capital with the Ministry of Commerce on 20 July 2015.
- b) On 27 July 2015, the Extraordinary Meeting of the shareholders of SAAM Solar Power One Co., Ltd., a subsidiary company, passed a special resolution to increase its registered share capital from Baht 1 million (10,000 ordinary shares of Baht 100 each) to Baht 40 million (400,000 ordinary shares of Baht 100 each) by issuing 390,000 ordinary shares with a par value of Baht 100 each. The subsidiary company registered the increase of share capital with the Ministry of Commerce on 4 August 2015.
- c) On 27 July 2015, the Extraordinary Meeting of the shareholders of SAAM Solar Power Two Co., Ltd., a subsidiary company, passed a special resolution to increase its registered share capital from Baht 1 million (10,000 ordinary shares of Baht 100 each) to Baht 40 million (400,000 ordinary shares of Baht 100 each) by issuing 390,000 ordinary shares with a par value of Baht 100 each. The subsidiary company registered the increase of share capital with the Ministry of Commerce on 4 August 2015.

11.2 Purchase of investment

On 15 December 2016, the Extraordinary Meeting of the shareholders of the Company passed a special resolution approving the purchase of newly issued 99,998 ordinary shares with a par value of HKD 1 each of Solar Investment International Limited in Hongkong, representing a 100% interest in that company, in order to support the expansion that is to occur in Japan and for future tax benefits.

Subsequently, on 4 January 2017, this company registered the increase of its share capital from HKD 1 to HKD 100,000.

11.3 Changes in name of company

On 15 December 2016, the Extraordinary Meeting of the shareholders of the Company passed the resolution to Solar Investment International Limited to change the company's name from "Solar Investment International Limited" to "SAAM International Limited". Subsequently, that company registered the change of its name with the Company Registry in Hongkong on 10 January 2017.

•							

Movement in the long-term loans account during the years ended 31 December 2016 and 2015 are summarised below.

	(Unit: Tho	usand Baht)
	Consol	idated
	financial statements	
	<u>2016</u>	2015
Balance at beginning of year	152,819	660
Plus: Addition during the year	6,165	152,819
Less: Repayment	(10,295)	(660)
Balance at end of year	148,689	152,819

The loan agreements contain several covenants which, among other things, require the two subsidiaries to maintain debt-to-equity ratio and debt service coverage ratio at the rate prescribed in the agreements.

During the year 2016, SAAM Solar Power One Co., Ltd., a subsidiary company, entered into an interest rate swap contract with a local commercial bank to swap the interest rate on half of the balance of a long-term loan from that bank from a rate of BIBOR 3 month per annum, to fixed interest rate of 2.41 percent per annum. The contract is effective from 7 July 2017 until 7 July 2021.

Provision for long-term employee benefits				
at end of year	1,024	1,101	783	726

Line items in profit or loss under which long-term employee benefit expenses are recognised are as follows:

			(Unit: Th	ousand Baht)
	Consolidated financial statements		Separate financial statements	
	2016	2015	<u>2016</u>	2015
				(Restated)
Administrative expenses	330	153	290	55
Total expenses recognised in profit or loss	330	153	290	55

The Company and its subsidiaries do not expect to pay long-term employee benefits during the next year.

As at 31 December 2016, the weighted average duration of the liabilities for long-term employee benefit is 6.6 - 15.8 years (Separate financial statements: 7.5 years).

For the first-time adoption of TAS 19 Employee Benefits, the Company and its subsidiaries elected to recognise the transitional liability, which exceeds the liability that would have been recognised at the same date under the previous accounting policy, retrospectively as though the Company and its subsidiaries initially recorded these employee benefit expenses

Significant actuarial assumptions are summarised below:

(Unit: perce	ent per annum)
Consolidated	Separate
financial	financial

19. Share capital

On 20 July 2015, the Extraordinary Meeting of the shareholders of the Company, passed a special resolution to increase its registered share capital from Baht 5 million (50,000 ordinary shares of Baht 100 each) to Baht 110 million (1,100,000 ordinary shares of Baht 100 each) by issuing 1,050,000 ordinary shares with a par value of Baht 100 each. The Company registered the increase of share capital with the Ministry of Commerce on 27 July 2015.

20. Statutory reserve

According to the Thai Civil and Commercial Code, the Company is required to set aside to a statutory reserve an amount equal to at least five percent of its net profit each time the Company pays out a dividend, until such reserve reaches ten percent of its registered share capital. The statutory reserve cannot be used for dividend payment. During the year 2016, the Company set the statutory reserve by Baht 0.6 million (2015: Nil).

21. Expenses by nature

Significant expenses classified by nature are as follows:

			(Onit: Tho	usano bant)
	Consoli	dated	Sepa	rate
	financial sta	atements	ents financial statement	
	2016	2015	2016	2015

The subsidiaries are required to comply with certain significant conditions under BOI certificates.

The subsidiary companies' operating revenues for the years are producing of electricity generated from solar energy which could be divided between BOI promoted activities and Non-BOI promoted activities.

	(Unit: Thousand Ba		
	<u>2016</u>	2015	
BOI promoted	17,121	68	
Non-BOI promoted		(
Total sale	17,121	68	

24. Earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

25. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Company and its subsidiaries are organised into business units based on its services and have two reportable segments as follows:

1. Development service

Development of renewable energy projects for customer

2. Distribute of electricity

Development and management for own solar energy project

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements. However, the Company and its subsidiaries financing activities (including finance costs and finance income) and income taxes are managed on a Group basis and are not allocated to operating segments.

25.1 The results of operations separated by business segment

The following tables present revenue and profit information regarding the Company and its subsidiaries' operating segments for the years ended 31 December 2016 and 2015, respectively.

As at 31 December 2015, the Company and its subsidiaries did not have the assets and liabilities were measured at fair value.

29. Financial instruments

29.1 Financial risk management

The Company and its subsidiaries' financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, trade accounts receivable, loans, investments, and short-term and long-term loans. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Company and its subsidiaries are exposed to credit risk primarily with respect to trade accounts receivable, loans and other receivables. The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. However, the Company and its subsidiaries have high concentrations of credit risk since their customers base consist of a few, large customers. The maximum exposure to credit risk is limited to the carrying amounts of receivables, loans and other receivables as stated in the statement of financial position.

Interest rate risk

The Company and its subsidiaries exposure to interest rate risk relates primarily to its cash at banks and long-term borrowings. Most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

As at 31 December 2016 and 2015, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

Foreign currency risk

The subsidiaries exposure to foreign currency risk arises mainly from purchase equipment that is denominated in foreign currencies.

As at 31 December 2016 and 2015, the balances of financial assets denominated in foreign currencies are summarised below.

Consolidated Financial Statements

	Currency	Financia	al assets	Average ex	change rate
		2016	2015	<u>2016</u>	2015
		(Million)	(Million)	(Baht per 1 forei	gn currency unit)
US dollar		0.7	0.7	35.6588	35.9233

Interest rate risk

A subsidiary company has an interest rate swap contract to swap the interest on half of the balance of a long-term loans from bank as described in Note 16 as below.

Consolidated Financial Statements

Currency	Loan	Interest	Maturity date
	(Million)	(Percent per annum)	
As at 31 December 2016			
Baht	46.4	Exchange of interest at	9 January 2017
		BIBOR 3 month to	
		interest at 2.41	
		per annum	

As at 31 December 2015, the Company and its subsidiaries have not entered into an interest rate swap contract.

29.2 Fair values of financial instruments

Since the majority of the Company and its subsidiaries' financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

30. Capital management

The primary objective of the Company and its subsidiaries' capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2016, the Group's debt-to-equity ratio was 1.11:1 (2015: 1.59:1) and the Company's was 0.03:1 (2015: 0.08:1).

31. Approval of financial statements

These financial statements were authorised for issue by the Company's authorised director on 20 April 2017.
