Performance and Analysis

Business Performance Summary

Revenue

For the 9-month period ended 30th September 2024, the Group's total revenues amounting to THB 54.80 million, a THB 0.37 million or 0.69% increase from the same period of the previous year mainly due to the subsidiary's revenue from sale of electricity recognition which is varied in line with the irradiation quantity at different time of the year, while as an increase in other income, which mainly comprised of interest income and consultation income.

Net profit

For the 9-month period ended 30th September 2024, the Group's reported a net profit of THB 10.55 million, a decrease of THB 6.56 million or 38.35%, compared to the same period last year. This decline was primarily due to an increase in administrative expenses, as previously mentioned, along with a net foreign exchange loss and higher income tax expenses for the subsidiary resulting from the expiration of tax exemptions granted by the Board of Investment (BOI).

Quarter-on-quarter (QoQ), net profit decreased by 67.92%, from THB 4.91 million to THB 1.57 million, a decline of THB 3.34 million. Year-on-year (YoY), net profit dropped by 69.37%, from THB 5.14 million to THB 1.57 million, a decrease of THB 3.57 million. The primary cause of this decline was the net foreign exchange loss.

Key Milestones

The Company or SAAM is founded in 2007 with the initial intention to engage in project site procurement and rendering of services in relation to photovoltaic (PV) power plants (Solar Farm). The Company then later expanded its scope of operations to include the investment in a solar project, and development of renewable energy projects overseas.

In 2022, the Company expanded its business to investment in non-energy related business by investing in Game Development Company, as well as co-developing games with other partners.

Risk Management Policy

- Risk that the Group's land lease may be rescinded by the owner of the deed prior to its expiration, and that leases are not extended once they expire.
- Lower-than-expected electricity generation output
- Physical risks from natural disasters or uncontrollable events
- Risks from changing government policies or those of relevant agencies
- Risks of insufficient compliance with relevant laws and regulations
- Competitiveness in the renewable energy generation and sales business
- Uncertainty surrounding the success of overseas renewable energy generation projects, and risks that developed projects may not deliver returns as expected.
- Risks that overseas renewable energy generation projects for clients do not adhere to plans
- Lack of continuity in revenue from the renewable energy project development business.
- Risks of customers having bargaining power over the renewable energy project development business.
- Risks regarding fundraising for investments in the renewable energy project development business.
- Risks surrounding site procurement to develop future renewable energy generation projects.
- Risk of majority shareholder control over minority shareholders at shareholder meetings.
- Risks that legal proceedings could impact the value of assets embedded in the budget for the SAAM-SP2 projects.
